

A Letter of Hope

It has been a few months now that I have replacement furniture due to a fire in June in which I lost everything I owned. As devastating as the fire was, it was even more tragic to finally get into a new place and find myself staring at endless white walls and empty rooms. I am so grateful to St. Kilian Parish for leading me to the local St. Vincent de Paul Conference where I would eventually get furniture and other household items. Now my empty apartment looks like a real home. I am able to sleep, relax and enjoy it much better. It has been a blessing from God for everyone that helped me through my time of crisis, fear and doubts.

Thank you St. Vincent de Paul for making my house a home.
